MCA SEM I
Assignment Questions on DCN

1. **Explain Transmission media in detail.**
2. **Explain Network architecture with the help of diagram.**
3. **Explain Routing algorithm in detail.**
4. **Explain congestion control algorithm.**
5. **Explain data compression techniques in detail.**
6. **Explain session layer design layer issues in detail.**
7. **Explain concept of file transfer access and management in application layer.**
8. **Explain Festiel cipher structure with diagram.**
9. **Write steps of SHA -1 Secure Hash Function and also explain single 512 bit block.**
10. **Explain Diffie-Hellman Key Exchange algorithm in detail.**
11. **Explain public key cryptography RSA algorithm in detail.**
12. **Explain X.509 Authentication Service in detail.**
13. **What is pretty good privacy? Explain principle services provided by it.**
14. **Define Intruders? Explain types of Intruders and explain Intrusion technique.**
15. **Define Firewall design principle? and Explain types of Firewall.**
